convenient installation and maintenance. With high detection accuracy, when the load power is less than 2%, the measurement accuracy is still high. In addition, it allows the system to be monitored and controlled remotely.

LIVOLTEK GT3-15K-D1 PV inverter is developed for residential or commercial customers who need a three-phase rooftop model. The integrated shade fixing management system ensures the inverter to maximizes energy production even when the PV panels are lightly shaded. With 160V ultra-low start-up voltage, ultra-long working time, it's surely an ideal choice ...
