Tata solar is No.1 among all solar companies. It is the biggest solar panel brand in India. The trust and support it has gained from the Indian market is incomparable. The highly trusted brand of Tata manufactures a wide variety of solar panels for residential, commercial, industrial and institutional purposes. Tata solar panels are available in 50 watt capacity to 330 watt capacity.

The best way to understand the cost of a residential solar project is price per watt. Price per watt is the total cost of the project (including materials and installation with any financial incentives deducted) divided by the total wattage of your solar panels. So, if you have ten 200-watt solar panels, your system size is 2000 watts. If your ...
