How much does a 365 watt solar panel cost?

The average price of 365 Watts solar panels on our website is between \$220 and \$540. The size of your 365 Watt solar panel depends on the manufacturer and the design of the module. If the solar panel has 60 solar cells in its construction, its dimensions will be about 65" x 40" x 1.5" and it will weight around 45 lbs.

Are 365w solar panels worth it?

By building your system out of powerful modules, you get more energy from a square foot and use your space more efficiently. The 365w solar panel price is usually slightly higher than the one for more popular modules for home installations, but the power output is worth it.
