

8 4V lithium battery pack

What is a lithium ion battery pack?

These battery packs consist of two 3.7V lithium-ion cells connected in series, delivering a total voltage range of 7.4V to 8.4V. With their compact size and high energy density, these battery packs are suitable for a wide range of applications, including RC vehicles, drones, portable electronics, and more.

What is a 2 cell lithium-ion battery pack?

Discover our range of 2 Cell (7.4V~8.4V) lithium-ion battery packs, designed to provide reliable and consistent power for your electronic devices and projects. These battery packs consist of two 3.7V lithium-ion cells connected in series, delivering a total voltage range of 7.4V to 8.4V.

What is a battery pack used for?

With their compact size and high energy density, these battery packs are suitable for a wide range of applications, including RC vehicles, drones, portable electronics, and more. We offer a variety of capacity options to cater to different power requirements.
