

Amphibious solar water pump

What are Amphibio floating pumps?

Our company has developed a new series of floating pumps branded as Amphibio. These pumps are based on many years of experience and customer requirements around the world. They are designed for pumping water from flooded places, streams, ponds, and hard-to-reach sources of water.

Are solar-powered water pumps eco-friendly?

Whether you are looking for the most environmentally friendly pumping solution on the market or want to give your garden a plus of beauty and elegance, a solar-powered water pump is what you should look for. It's 100% green, efficient and cheap! Each pump comes with its solar panel, and it's straightforward to install and use.

How to use a solar water pump?

The Sunbell Solar Water Pump is ideal for a garden patio or pond. It comes in with a 3 m long cable and 4 different nozzle heads. It's very easy to use- just immerse the pump under water, place the panel under full sunlight and it will start automatically. Besides, the beautiful waterfall will give your garden a unique, special look.

Is the Bacon DC Farm & Ranch solar water pump submersible in water?

The Bacon DC Farm & Ranch Solar Water Pump is submersible in water. Its large flow and low power cost go hand in hand and make it a very efficient solution for those who consume a large water amount and do not want their electricity bill to be too expensive.

Is a solar water pump a good investment?

It's an anti-corrosive, which guarantees long life service, making it an excellent investment. Given its significant power, this solar-powered water pump is ideal for larger applications, such as the drainage or shipping or aquaculture. It also serves as a high pump in the mineral industry.
