What are the best portable power banks for backpacking?

These are the four best portable power banks for backpacking-- plus a versatile solar lantern that can also charge your phone. From basic to advanced models, they include The Fan-Favorite Power Bank.

Should you buy a power bank for a backpacking trip?

Other backpackers may have more needs - like staying connected to a signal, streaming music, taking lots of video, or even just more time between charging stations. These hikers might want a power bank with up to 20,000 mAh. On the other side of the spectrum, a smaller power bank is just fine for shorter trips.

What is the best power bank with 10,000 mAh?

As established above, a power bank that falls in the realm of 10,000 mAh is best for most purposes of most thru-hikers and backpackers. By all measures it seems that the Nitecore NB 10,000 is the best power bank with 10,000 mAh. It's the lightest, it's the most efficient, and it's weather-resistant (rated IPX5).

What is the best battery pack for backpacking in 2025?

Read the Review Policy for further details. The Best Battery Packs For Backpacking in 2025 are: The Nitecore NB 20000 Gen 3 is popular for backpackers and hikers who want a large power bank capacity at the lightest possible weight. Anyone who is thru-hiking should take a good look at power banks like this one.

How do I choose the best lightweight power bank?

To help you find the best lightweight power bank for your needs, I tested three different models to assess how much usable power they could hold under different scenarios, their durability, charging speed, and additional features. For consumers, the three metrics that are the most important are weight, charging speed, and usable power.

Are battery banks good for backpacking?

Staying powered up while backpacking can be challenging. Battery banks designed for heavy use tend to be bulky and weigh a ton, making them impractical for lightweight trips. However, there are some excellent lightweight and ultralight options that can keep your devices charged without breaking your back.
