What is an off-grid solar inverter in Gauteng?

Off-grid solar inverters in Gauteng are best suited for people who want to be completely off the Eskom grid and be self-efficient, or for people who do not have access to Eskom's electricity grid. A fully installed off-grid solar system in Gauteng can be pricey but, it can save large amount of money in the long term.

Should you use the Belgian electricity grid?

Making use of the Belgian electricity grid is often taken for granted. Nevertheless, there is a perfect alternative: provide your own energy and be independent of expensive public grid energy. Your very own, local energy-generating system supplies your electricity. It doesn't even matter how you generate that energy (solar panels, wind, etc.).

Should you go off the grid in Belgium?

Go off the grid. Making use of the Belgian electricity grid is often taken for granted. Nevertheless, there is a perfect alternative: provide your own energy and be independent of expensive public grid energy. Your very own, local energy-generating system supplies your electricity.

What is a smart off-grid system?

The smart off-grid system makes sure that no energy is lost, and it functions as both inverter for direct use, and as a charger for battery storage. It still remains possible to connect it to an emergency generator, or even to the public power grid. There are really no limits to the YouPower off-grid system.
