

Belize AC Uninterruptible Power Supply Model

The S3K Series uninterruptible power supply protects against most severe power disturbances including over/under voltages through state of art, line-interactive technology - most power disturbance corrections are accomplished without transferring to the internal battery.

Chloride® CP70Z industrial Uninterruptible Power Supply system (UPS) is the flagship product of the Chloride® range. It combines conservative design (SCR/IGBT) with proven digital control to ensure the utmost reliability in any electrical and environmental conditions. Range Overview Associated with an industrial stand-by

The equipment is Uninterruptible Power Supply, electronic components mounted on PWB; external enclosure is metal, secured by screws. Supply by 60VDC battery or 200-240VAC, 50/60Hz AC power source. All tests were conducted on 1500VA, all models are different of model name and input power, output power. Max. ambient operating temperature: 45oC

A UPS, short for uninterruptible power supply, is an electrical device that provides backup power when the power source fails. A UPS is different from an auxiliary or back-up power system in that it provides almost instantaneous protection against power interruptions by supplying energy stored in batteries, supercapacitors or flywheels.
