

Bifacial solar panel prices in Muscat

How much do bifacial solar panels cost?

The price of bifacial panels is expected to range anywhere from INR4,79,271 to INR9,58,542. The size, brand, and material contribute to the total cost of any solar panel, not just the bifacial ones. The only people who can give you the correct prices are either manufacturers or solar installation companies.

How much does a solar panel system cost?

Buying an average-size solar panel system generally costs around 2.00 USD per watt, therefore, a 3kw system will cost approximately 6,000 USD (including installation). Leasing a solar panel system is \$0-down and has fixed monthly payments. Whether you buy or lease, the solar energy you produce will lower your utility bill.

How do I pay for solar panels?

With solar panels, we offer a few options for payment: Purchase your system outright and own your energy from day one. Similar to a car loan, you can finance your solar purchase through Symtech Solar and pay in monthly installments. You'll immediately benefit from savings on your utility bill.

Where can I install solar panels?

If you have offices with a flat roof or land available for solar panels, you can install solar. You can install solar panels above car parking shades. If you are a manufacturer, you can install solar on your rooftop, on your car parking shades or on available land adjacent to your operations.

1. Double-sided: The most striking feature of the bifacial solar panel is that it has two faces (or sides) capable of absorbing sunlight, one at the top and the other at the bottom of the panel. This increases the panel's efficiency, as it ...
