Our products and solutions. Whatever their choice, the right semiconductor products are key to meeting their specific design targets. ST broad product portfolio includes highly-integrated AC-DC converters and controllers, monolithic DC-DC converters, silicon and silicon carbide (SiC) power MOSFETs and rectifiers, IGBTs and protection ICs, linear voltage regulators, battery ...

A wide range of inverters (solar pv and storage), tailored to suit any type of system scale: residential, commercial, industrial and utility scale.. With more than 50 years" experience in the power electronics sector, and more than 30-year track record in renewable energy, Ingeteam has designed an extensive range of PV solar and storage inverters with rated capacities from 5 kW ...

Compared to three-phase monoblock systems, INVERTRONIC modular inverters have a lower volume and weight. With n+1 redundancy, the parallel connection of the inverter modules results in power supply systems with maximum availability and a power range of 10 kVA - 180 kVA. Advantages of these inverters when setting up industrial power supplies:

Inverter Generators. In Cameroon, inverter generators are also a good fit, especially for areas where electricity supply is irregular. These generators produce a stable current, specifically useful for sensitive electronic products like computers and medical equipment.
