

Canberra Home Solar Lights

Why should you install skylights in Canberra?

By installing skylights Canberra residents can add brilliant natural light to any space in their home. And you don't need to worry about the impact of the light on furniture, paintings, fish tanks etc. Solatube has UV and infrared filtering and provides many benefits of natural light.

Are Solatube skylights a good choice for Canberra builders?

Solatube's tubular skylights, in particular, are popular with Canberra builders, as their unique technology is designed to create consistent lighting throughout the year. Standard skylight products will provide huge spikes of light and heat during the summer while often not meeting the minimum lighting requirements during the winter.

Can solar hot water be used in Canberra?

Solar hot water is by far the single most efficient green system you can install in your home. We recommend evacuated tube systems oriented north and pitched at an angle of around 55 degrees for the Canberra climate. Are you capturing as much water as you can to be used in your toilet, washing machine, and garden?

Why are solar-powered lights so popular in Australia?

Solar-powered lights for homes are an increasingly popular lighting solution across the Australian market. Solar LED lights offer an even more efficient and sustainable option than regular LEDs, so it's not hard to see why the demand for these products is skyrocketing.

Do large windows cause solar gain in Canberra?

Seven Hours of Sunlight With more than seven hours of average daily sunshine in Canberra's hot, dry summers, large windows can cause unwanted solar gain. In the darker winter months, even the best multi-glazed windows enable much wanted heat to escape the building.

How can I reduce air pollution in my Canberra home?

The average Canberra home replaces its entire volume of air every hour - but it doesn't take much to reduce this significantly. Ducted heating systems and the craze for hundreds of downlights are a current trend to be avoided. Limit every hole in your beautifully constructed home. Use pendant lights, wall lights, pelmet lights.
