What can portable power stations help with?

Portable power stations can help with camping for the weekend, living off-grid, or protecting against power outages. Over the past few years, as people have turned away from gas-guzzling generators, portable power stations have enjoyed a meteoric rise. You can buy tons of power stations with varying portability and capacity.

How to choose a portable power station?

Before you buy, check the specs of the power station. Consider the charging speed, as large-capacity stations can take a long time to recharge. Make sure you understand how quickly your chosen power station can charge from the mains and other sources like solar panels, a car battery, or another power source for top-ups.

What are the best portable power stations?

To help you decide, I tested the efficiency, in a variety of scenarios, of the best portable power stations from Jackery, Oupes, EcoFlow, Anker, Goal Zero, Greccell, Bluetti, Dakota Lithium, Lion Energy, Vtoman, and Ugreen. [What to Know Before Purchasing a Portable Power Station](#)

Are portable power stations suitable for camping?

Almost all compact portable power stations will be suitable for camping, but I rather like the Bluetti Handsfree 2 for this role - mostly because many of them are big, boxy, unwieldy units that take up a fair amount of space.

What does a good portable power station offer in terms of safety?

A good portable power station offers safety designs in addition to the charge circuit, to the cooling and durability of the portable power station. Larger brands also offer the promise of better engineering support in their power station design.

What accessories do you need for a portable power station?

Some useful accessories for portable power stations include a cord to connect to similar power stations in series (often doubling your power output), a light bar or extendable camping lights for visibility at night. Some models may come with these accessories, like Anker's Solix C800 Plus.

After testing over 100 power stations and evaluating charging options, capacity, charge time and other features, we've narrowed down our top picks. [Which is the best portable power station?...](#)

The outdoor power supply is not just a "large power bank"; it is more suitable to be called "portable energy storage". At present, the outdoor power supply of 1000Wh is not enough to supply power for various mobile phones, digital products, electrical products, mobile refrigerators, rice cookers, and other home appliances.
