Cyprus has set out a policy framework for the integration of energy storage systems after reaching a funding agreement with the European Commission (EC). The Mediterranean island's Ministry of Energy, Commerce ...

ERGO ENERGY. The Ergo Home Group of companies, is a group with an extensive local and international presence, and has been actively involved in the energy sector since 2010, via its subsidiary company Ergo Home Energy Ltd. ...

The Council of Ministers, the executive branch of the Cypriot government, has approved the nation's funding plan for energy storage systems installed in conjunction with renewable energy...

Only 15% of Cyprus' total energy production comes from Renewable Energy Sources (RES), highlighting the country's significant lag in this sector. Furthermore, Cyprus faces a considerable deficit in storage infrastructure, leading to the wastage of renewable energy that cannot be consumed during periods of abundant sunshine or high winds.

A Promising Start With a Disappointing Reality By Andreas Procopiou Six years ago, Cyprus embarked on an ambitious path towards renewable energy, aiming to harness its abundant Mediterranean sun and wind power. By 2024, the proportion of renewable energy sources (RES) in the island's energy mix increased from 9% in 2018 to 23% (Figure 1). ...

The cabinet approved the first state subsidy scheme for energy storage systems at existing renewable energy parks and net billing installations, the energy ministry announced Thursday.. Energy Minister George Papanastasiou said after the cabinet meeting that the scheme's first phase, worth 35 million euros in subsidies, would be implemented initially, ...

Applications for participation in the scheme will be accepted from January 15, 2025. The Council of Ministers, the executive branch of the Cypriot government, has approved the nation's funding plan for energy storage systems installed in conjunction with renewable energy plants which had been implemented under earlier support plans, as well as self-consumption ...

Cyprus has introduced its first ever energy storage subsidy scheme concerning large-scale renewable energy plants, targeting a 350 MWh rollout. The scheme has a competitive character,...

The Council of Ministers of Cyprus approved the Grant Scheme for Energy Storage Systems in Combination with Renewable Energy Sources in November. Ahead of the start of the application process on February 14, the Ministry of Energy, Trade and Industry published a guide.

Cyprus is going through exciting times of growth and development thanks to a renewed boost in confidence with foreign investors flocking back to its shores, attracted by the improved economic climate, large-scale projects and burgeoning prospects in the real estate, investment fund and energy sectors.
