These products come with a 10 Year Product Warranty and a 25 Year Linear Power Warranty. TSM-PE15H 340-355W products have a silver frame and are EU-28 WEEE compliant. The recyclable packaging is also a part of this offer.

What is the warranty period for the equipment?

The warranty period for the Equipment is one (1) year, unless otherwise stated on the face hereof, and shall start thirty (30) days after delivery to the carrier (F.O.B. HRS' origination location) or upon installation, whichever is sooner.

What is the warranty period for a repaired device?

1. Provide brand new components/parts for all repaired devices. 2. All repaired or replacements are entitled to the warranty period of the initial purchased date or 3 months from the repaired date. Warranty period is in accordance to the longest duration of the warranty available. 3.

How long does a battery warranty last?

If your battery has a defect or mechanical issue, if it breaks, or experiences unreasonable wear and tear, that's where your product warranty comes into play. Nowadays, most manufacturers offer at least 10 years of coverage under a product warranty, while some premium options have up to 20 years of protection against product defects.

Does a battery storage system need a warranty?

A battery storage system is a decades-long investment that a warranty can help protect. The less power your system stores, the more your home may need to draw from the utility company, which eats into your savings. A good warranty ensures that if your battery experiences a problem, that it will be replaced and your investment will be protected.

Which battery storage system has the strongest warranty?

Comparisons should focus on product warranty terms, end of warranty capacity, labor warranty terms, and transferability. Based on our ranking system, SolaX Power has the strongest overall warranty. Why are battery warranties important? A battery storage system is a decades-long investment that a warranty can help protect.
