

Fangda Building Photovoltaic Curtain Wall

Who is Fangda group?

Fangda group's smart curtain wall and new material industry takes intelligence, low carbon, environmental protection and sustainability as the development direction, leading the development of China's curtain wall and new material industry. The company has strong R & D strength and advanced PVDF aluminum veneer production and manufacturing base.

Is Fangda a good curtain wall brand?

Its competitiveness ranks in the forefront of the same industry in the world, and it is a well-known brand of curtain walls in the world. Fangda group is a well-known enterprise in the rail transit PSD industry in China.

What makes Fangda unique?

Ingenuity, building thousands of square curtain walls; Fangda has participated in the construction of more than 33million square meters of curtain walls; Innovation pursues dreams and grows together with the city; Fangda has built 10 skyscrapers over 300 meters, constantly refreshing the urban skyline;

What is Fangda intelligent construction?

Fangda intelligent construction,site adopts a variety of advanced intelligent equipment,and builds a PMS project management platform and a QAS quality and safety management system,which improves the quality and efficiency of the project.

Why did Fangda design a 'tulle' curtain wall?

The 'Tulle' shaped curtain wall conceived by Fangda group with God restoration design outperformed novel coronavirus,providing a guarantee for the smooth holding of the conference.

What is Fangda city?

The 'Fangda City' project in Shenzhenbuilt by Fangda group takes the R &D headquarters gathering area of high-tech industries and high-end emerging industries as the core function,integrates ecological office and characteristic commerce,and has a total construction area of about 330000 square meters.

In the field of energy-saving curtain wall industry, Fangda Group has actively developed energy-saving curtain walls and solar photovoltaic curtain walls. It has 170 patents for curtain wall ...
