Clay Energy was established in 1998 providing off-grid solar, wind, and micro-hydro systems for rural homes and communities in Fiji. In May 2002 Clay Energy commissioned the first off-grid solar base station power system for Vodafone Fiji, which led to the rollout of these power systems to six mobile operators in the region.

Many of Fiji's small islands and remote areas are not connected to the main electricity grid. The off-grid households are supplied electricity by government through the Fiji Department of Energy (FDoE). These off-grid systems comprise solar home systems, diesel generators, pico-hydro and solar hybrid systems. 23
