

Fiji outdoor power supply size specifications

What type of power outlet does Fiji use?

See our product selection criteria and guidelines here. Which power outlets do they use in Fiji? Fijian plugs and sockets are a Type I; The standard voltage is 240 V and the standard frequency is 50 Hz.

What type of power socket is used in Fiji?

The power sockets in Fiji are of type I. The standard voltage is 240 V at a frequency of 50 Hz. Check your need for a power plug (travel) adapter in Fiji.

Does Fiji have a power supply?

Fiji's Type I outlets have three flat pins, so make sure to bring an adapter compatible with this configuration. Generally, Fiji has a reliable power supply. However, like many tropical destinations, occasional power outages can happen. Resorts and major urban areas usually have backup generators to mitigate disruptions.

Do I need a power plug adapter in Fiji?

In Fiji, they use power sockets (outlets) of type I, like in Australia. Your plugs fit into the power sockets in Fiji. You don't need a power plug adapter. We don't sell power plug adapters. We refer you to Amazon or Ebay where you will find a great selection of travel adapters.

What type of plugs are used in Fiji?

Fijian plugs and sockets are a Type I; The standard voltage is 240 V and the standard frequency is 50 Hz. These plugs have 2 long, oblique blades that form into an upsidedown V-shape (seen sometimes with a third grounding pin in the same shape); They are generally used in Pacific Island countries like Fiji, New Zealand, Argentina, etc.

What is the standard voltage in Fiji?

The standard voltage in Fiji is 240 V, and the standard frequency is 50 Hz. Ensure that your devices are compatible with this voltage and frequency, or use a voltage converter if necessary. What is the electricity point in Fiji? The electricity points in Fiji are the Type I sockets, which are the same as those used in Australia and New Zealand.
