

Great value for money outdoor power supply

Which portable power station should I buy?

The best portable power station that you can buy will entirely depend on what you're looking for. For the majority of campers and vanlifers, you should go for the Jackery Explorer range. Jackery are best known in the industry for reliability and quality and have a range of sizes to suit 95% of buyers. What is a portable power station?

Are portable power stations worth it?

Portable power stations are more powerful and cost effective than ever before. And, thanks to advances in lithium-ion battery technology, they're also lighter and more compact. Whether you've been dreaming of van life or are building out your emergency kit in advance of that next blackout, there is a power station that will meet your needs.

What goes into a great power station?

Discover what goes into a great power station and how to choose the ideal one. A portable power station is essentially the mini version of a generator. It lets you keep important appliances and electronics running during a power outage, and can be a lifesaver during camping trips.

What features should I look for in a portable power station?

Some power stations also have indicator lights or alarms for certain conditions, like overloading or overheating. Choosing the best portable power station is all about considering your unique needs and circumstances.

Is BougeRV a good portable power station?

With its latest model, BougeRV has seriously jumped into the portable power station tech race. This means their products are worth considering when looking for a good portable power station.

How much power can a portable power station hold?

While a particular power station might claim to hold 1,000 watt hours, the actual amount of usable power you can get out of it is a different story. The best portable power stations also have an onboard computer that shows you how much energy is left in your unit, as well as how much power it's currently using.
