Which power bank is best for camping?

If you're planning an extended trip, Anker's PowerCore 337 is one of the best power banks for camping, thanks to its huge 26,800mAh capacity. According to the makers, it can top up your phone more than six times, or recharge tablets at least twice - about enough to last you a week.

Do you need a waterproof power bank for camping?

For camping in damp or humid conditions, or on expeditions, you might need a waterproof and rugged power bank. Look for a product with a certified IP rating, such as IPX6 or IP67, to ensure it can cope with moisture or immersion as well as bumps and knocks.

What makes a good power bank?

A durable power bank is essential for outdoor activities. Look out for power banks with additional features like water resistance, shockproof casing, and sturdy construction to withstand the rigors of camping. Some power banks, such as the Jackery, have the option to be charged via solar panels.

How to choose a portable power station for camping?

For camping, you'll want a portable power station that doesn't add too much weight to your gear. If you are spending a long time in the great outdoors, you should prioritize the capacity so your devices can last the trip. If you are doing a shorter trip or a day hike, you will want to consider the size and packability factor of the power bank.
