Its total capacity is 16 MW, allowing it to power 9,000 homes. Until 2019, it was the second-largest solar power project in Hungary. It cost nearly 6.5 billion Hungarian forints (almost 20 million USD) and utilizes around 72,500 solar panels. Until 2019, it was the third-largest solar plant in Hungary and the second largest in the region.

Is Pecs worth visiting? Absolutely! The first time I visited Pecs, I was struck by its unique blend of history, culture, and Mediterranean charm. Strolling through its cobblestone streets, past colourful buildings and ancient Roman ruins, I quickly realised why Pecs is considered one of Hungary's most captivating cities.
