

Inverter 24v multifunctional

What is a multifunctional solar inverter?

This is a multifunctional solar inverter, integrated with a MPPT solar charge controller, a high frequency pure sine wave inverter, and UPS function module in one machine. It is perfect for off grid back up power and self-consumption applications. The transformerless design provides reliable power conversion in compact size.

What are the features of a Multiplus inverter?

Its many features include a true sine wave inverter, adaptive charging, hybrid PowerAssist technology, plus multiple system integration features. The MultiPlus will prevent overload of a limited AC source, such as a generator or shore power connection. First, battery charging will automatically be reduced when otherwise an overload would occur.
