

Inverter Kit Price

Where can I buy inverters online?

You can buy inverters online from popular sites such as Amazon and Flipkart. These internet shopping websites offer an ocean full of options and affordable prices. They also deliver the product to your doorstep. Prices mentioned above are the best (least) price available for each item across all stores.

How much does a solar inverter cost?

As inverters are an essential part of a solar PV system, they are usually included as part of the whole package so their price may not be apparent unless you ask your installer. For a good quality 5kW grid-interactive inverter, expect to pay between \$1,000 (for a low-cost but dependable one) and \$2,000 (for a premium inverter with extra features).
