Lilongwe construction site container wholesale

What is a construction site container?
Herocont offers turnkey solutions for modular and prefabricated buildings,such as furniture and industrial kitchen equipment! Construction site container or construction container is a modular container,resistant to harsh conditions in various construction sites.

Why do we produce containers on construction site?
At the same time,we produce containers for efficiency-comfort of workforceon construction site. Container models vary depending on the size and needs of the construction site. Additionally,these containers can be used as dining hall containers,dormitory containers,office containers and social area containers on construction sites.

What is a construction type container?
Construction type containers produced from galvanized sheet metal profile and sandwich panel materials with high technologyare,thus,produced in a structure that is long-lasting,durable and allows multiple uses. Herocont containers are suitable for all worldwide climatic conditions,and shipped worldwide in short time.

What are construction containers used for?
These type of containers,which are used as work offices,dormitories,dining halls,kitchens and security sitesin energy,mining,oil,housing and many other construction sites,offer a fast and practical solution to construction companies.

What are the dimensions of a construction container?
Construction container may have standard dimensions of 2.40×6.00m or 3.00×7.00m,depending on the conditions in the project area where the construction takes place. However,we also produce larger sizes and combined containers as needed. At the same time,we produce containers for efficiency-comfort of workforce on construction site.
