In 1922, Huber built the first illuminated baseball park (still in use today) west of the Mississippi. The outdoor "stadium" served as home to the Madrid Miners, a farm team for the Brooklyn Dodgers who played a game in the park in 1934. Madrid was also home to one of the most elaborate and famous Christmas light displays in America.

The town of Madrid collapsed with the coal market. The Albuquerque and Cerrillos Coal Company ceased to operate and almost all of Madrid's residents moved away in 1954. An ad in the Wall Street Journal listed the town for sale ...

P.S. People might watch that video and think this new retractible field process is way too dramatic. Well think about the the Big Toaster in Arizona and how big of a disaster the field was last year when they hosted the Super Bowl. It was a fucking slip 'n slide. I wonder if they take a look into what Real Madrid just did and make similar changes.

A city where sunlight fuels not just tapas bars but also massive "water batteries" hidden in mountains. Welcome to Madrid's energy landscape, where solar power and energy storage ...
