

Male UPS Uninterruptible Power Supply Agent

What does ABB's HiPerGuard MV UPS offer?

ABB's HiPerGuard MV UPS provides a continuous and reliable power supply of up to 24 kV. In short, ABB is the partner for all your power protection needs. Watch this video introducing the HiPerGuard MV UPS.

Why do we need an uninterruptible power supply?

Maximum availability and reliability of measurement and control technology, drives, sensors, cameras, communication and safety technology as well as embedded PC systems requires the uninterruptible power supply of these components in case of a power failure, flicker and voltage drop.

What is the power range of ABB's UPS systems?

ABB's UPS systems range from 10 kVA to 5 MVA. They offer standalone and modular solutions to protect against all power failures, voltage regulation, power factor correction and harmonics.

What is a three-phase UPS?

ABB offers three-phase standalone and modular UPS systems ranging from 10 kVA to 5 MVA. These systems provide protection against power failures, voltage regulation, power factor correction, and harmonics.

What is an online UPS & how does it work?

By isolating the input from the output, online UPSs provide true sinewave power to attached equipment that is clean and free of any power anomalies, making them an ideal solution for sensitive information systems, network equipment, as well as protection from power anomalies which can be present during the changeover to generator power.

What is a three-phase online modular uninterruptible power supply system?

Three-Phase online modular uninterruptible power supply systems from the Modulon UPS family offer scalability and redundancy in a single frame, with up to 600 kVA. Delta's UPSs are some of the most advanced in the industry, renowned for their innovation, reliability, and efficiency.

In the Ultron UPS family, three-phase online UPSs have power ratings of up to 4000 kVA, perfect for data centers, industrial facilities, and more. Three-Phase online modular uninterruptible power supply systems from the Modulon UPS family offer scalability and redundancy in a single frame, with up to 600 kVA. Delta's UPSs are some of the most ...
