

Morocco Casablanca outdoor power supply manufacturing

What will Eaton do in Casablanca?

In addition, it has been identified that the Eaton facility in Casablanca will serve as the pilot manufacturing site for energy storage battery packs and systems, supplying thousands of households and businesses across Europe, the Middle East and Africa.

Why is Eaton a key manufacturing location in Morocco?

The Eaton facility in Midparc has required an investment of \$12 million and is located on an area of 13,587 square meters, including an 10,100 square meter manufacturing facility. This demonstrates that Morocco is strategically positioned to be a key manufacturing location that can serve customers in Europe, the Middle East and Africa.

What is midparc & how will it impact Morocco?

With production intended to start 2017, this project will have a positive impact locally, regionally and internationally. Midparc is a leading industrial zone that forms part of the Moroccan government's National Pact for Industrial Emergence. Midparc covers 124 hectares of land near the Mohamed V international Airport in Casablanca.
