

New Delhi 12v inverter lithium battery

How many inverters can a lithium ion battery fit?

But with Lithium-ion batteries, it's different. They're lighter and need less space. You can even stack them on trolleys. So, you can fit 3-4 inverters in the same space.

Situated in New Delhi, Delhi. Read More... GET IN TOUCH WITH US FOR BEST DEALS © Aashii Energy India. All Rights Reserved (Terms of Use)

How long does a lithium ion battery last?

Fast charging capabilities of Lithium Ion batteries prevents them from full discharge and drastically increases the lifespan of the battery. A normal Lead-acid battery with 5-years of warranty lasts around 7-8 years while the new Lithium-Ion battery lasts 10 to 12 years and more. Here's why: Li-Ion batteries have a low self discharge rate.

Are lithium ion batteries safe?

Lithium-Ion batteries are free from these fumes because: They use acid free gel-like electrolytes. They are sealed units that prevent any release of gases. Purchase, connect, and forget for the next 5, 10, or even 15 years without any maintenance, unlike lead-acid batteries that require time and effort to fill water at regular intervals.
