

Outdoor Power Battery Solar Kit

What is a solar battery kit?

Introducing the revolutionary Solar Battery Kit that will change the way you power. This kit can recharge from the sun, wall outlet, or car, providing a limitless energy source you can take with you anywhere. Say goodbye to blackouts, power outages, and being powerless when outdoors, and hello to back-up power on demand.

How can the Solar Battery Kit recharge?

Introducing the revolutionary Solar Battery Kit that will change the way you power. With its ability to recharge from the sun, wall outlet or car, you are prepared with a limitless energy source you can take with you anywhere. Say goodbye to blackouts, power outages, being powerless when outdoors, and hello to back-up power on demand.

What does a complete solar kit include?

Our complete solar kits offer all-inclusive packages (solar panels, inverters, charge controllers, and batteries), providing everything you need to generate clean and renewable energy for your home, RV, or off-grid adventures.

How long is the warranty for the Solar Battery Kit?

Along with a 100% money-back guarantee for 30 days, we offer an exceptional 1-year warranty for the Solar Battery Kit.

Why should you consider a solar power bank?

A solar power bank, like the one included in Project Solar's Off-Grid Battery Kit, offers several benefits. It harnesses the power of the sun for free, making it a cost-effective and eco-friendly solution for your power needs. Additionally, it keeps your lights on for days, providing peace of mind and security during power outages.

Does Project Solar offer a warranty?

At Project Solar, we offer an exceptional 1-year warranty on our Solar Battery Kit, along with a 100% money-back guarantee for 30 days.

Introducing the revolutionary Solar Battery Kit that will change the way you power. Say goodbye to blackouts, power outages, being powerless when outdoors, and hello to back-up power on ...

We ended up purchasing this marine solar battery charger kit as our farm equipment. Compared to other solar battery chargers, this version is designed with a superbly high conversion rate. It is built with a mono-crystalline solar panel that can provide a 20% photoelectric conversion rate.

Highlights. The Premium Kit will produce an average of 1.6-2.5kWh of electricity per day (depending on sun availability); by bypassing the shaded cells with poor performance, the bypass diode minimizes the power drop caused by the shadow to ensure excellent performance in a low-light environment
