

Outdoor power supply recommendation ranking cost performance

What spec should you consider when buying a power station?

Whatever the reason you are purchasing a power station, the most important spec to pay attention to is watt hours, which is a measurement of how much energy the power station can hold. While a particular power station might claim to hold 1,000 watt hours, the actual amount of usable power you can get out of it is a different story.

Are portable power stations worth it?

Portable power stations are more powerful and cost effective than ever before. And, thanks to advances in lithium-ion battery technology, they're also lighter and more compact. Whether you've been dreaming of van life or are building out your emergency kit in advance of that next blackout, there is a power station that will meet your needs.

What are the best portable power stations?

To help you decide, I tested the efficiency, in a variety of scenarios, of the best portable power stations from Jackery, Oupes, EcoFlow, Anker, Goal Zero, Greccell, Bluetti, Dakota Lithium, Lion Energy, Vtoman, and Ugreen. [What to Know Before Purchasing a Portable Power Station](#)

Which Anker power station is best for a power outage?

Its UPS mode was one of the earlier units to boast "less than 20ms" switchover time in the event of a power outage. It's also currently \$500 off on Anker's site. Anker Solix F2000 (2,048Wh): Previously known as the Anker PowerHouse 767 and previous winner of "best large portable power station" here on CNET.

Do you need more than one power station?

The reality is that if you're going to need to plug in more laptops or phones into a power station than there are ports for, odds are you are going to need more than one power station (or a single unit that is outside the scope of "portable").

What is the best extra-large power station?

Outside of those environments, the flaps can be bothersome. Goal Zero Yeti Pro 4000 (3,993.6Wh): Runner-up for our best extra-large power station title, the Yeti Pro 4000 is a tank (which, by the way, is the name of the expansion battery: "Tank Pro 4000"). You get tons of input and output options, and it is expandable to 20kW capacity.

Consistently, the 10 amps MRC "power G", a simple DC power supply with a big lever, correct voltage, simple and rugged construction is my recommendation. I'd consider Bridgeworks a second, but the cost is higher, but a 5 amp unit, perhaps used would be a ...
