Valparaiso is where we had some of the best pisco sours we've tasted in all of South America. Pisco is a spirit made from grapes and its origins (like many things) are hotly contested between Chile and Peru. This drink combines pisco with lemon, sugar, and egg white to create a highly addictive and extremely tasty concoction.

By promoting this agrivoltaic pilot project to local farmers, the project contributes additional emission reduction of GHG. This project contributes to the achievement of Chile's policy for a renewable energy ratio target of 70% in 2050.
