

Portable 30v10a adjustable regulated power supply

What is a 0-10a DC regulated power supply?

Variable 0-10A,0-30V output DC regulated power supply is single output,high precision and high reliability,110 or 220V±10% AC input,4 LED digital display with accuracy of ±0.5%. This portable and adjustable power supply designed with grounding port for prevent the tester repairing your electronic workshops from current leakage.

What is a variable power supply?

The variable power supply features a big bright 4-digit LED display that shows the adjustable power supply output values of Voltage (V) / Current (A) / Power (W) in real-time. The high-definition backlit 4-digit LED display provides an accurate and clear readout for the voltage, current and power values even if you are in low-light condition

What is a jesverty SPS regulated DC power supply?

Try again! The Jesverty SPS series adjustable regulated DC power supply is designed for use in laboratories,schools,and production lines. Both output voltage and output current are continuously adjustable between 0 and nominal. The stability and ripple factor of the power supply are excellent and have a perfect protection circuit.

What is the size of adjustable DC power supply?

The size of adjustable DC power supply is 8.4*3.3*5.5 inchesand the lab power supply weighs only 2.6 lbs,which is very light and portable. You can carry your bench supply in and out of various workplaces

What is DC regulated power supply?

DC regulated power supply: Electronic device that can provide stable DC power for load. When the voltage or load resistance of the AC power supply changes,the DC output voltage of the regulator will remain stable.

What is volteq hy3010d?

Please enable this in your browser settings. VOLTEQ HY3010D is a brand new lab grade adjustable DC power supply,a slightly modified version of the HY3010D we carry for years. This highly stable,high quality DC power supply has an output continuously adjustable at 0-30V DC and 0-10A.
