

Portable large capacity storage power supply

What devices can a portable power station run?

So long as your portable power station has the right ports and enough capacity, it can run a massive range of devices, including phones, laptops, and desktops. Higher capacity units will also let you power appliances and charge electric vehicles. Check which ports your preferred model has, including USB Type-A and Type-C, AC and mains sockets.

Should you buy a portable power station?

Over the past few years, as people have turned away from gas-guzzling generators, portable power stations have enjoyed a meteoric rise. Whether you're camping for the weekend, living off-grid, or protecting against power outages, these big batteries can help. You can buy tons of power stations with varying portability and capacity.

What ports does a portable power station have?

Ports: While you will find certain ports across the board with portable power stations, from AC outlets to USB-A, it is crucial to check the maximum charging rate and supported charging standards to avoid disappointment. You might find USB-C ports, car ports, barrel ports, and maybe inputs for solar, but assume nothing.

What is the best portable power station?

We also assess extra features, like companion apps and Uninterrupted Power Supply (UPS), which delivers seamless, continuous power during unexpected outages. Right now, the EcoFlow Delta 3 Plus is the best portable power station we've tested overall.

What are the main features of a portable power station?

Most portable power stations have main common features (such as a battery and ports to pull power from that battery). However, port options, battery sizes, UPS ability, and recharging ability are some features that could vary from product to product.

How many kilowatts can a portable charger provide?

We've tried systems that can provide from 768 watt-hours of energy to 6.4 kilowatt-hours. We also have important advice on what to consider when shopping for one. For more modest needs, read our Best Portable Chargers guide. Updated September 2024: We added power stations from DJI, Bluetti, and Dabbsson, and refreshed prices throughout.
