Does SolarEdge have a 3 phase hybrid inverter?

SolarEdge don't have any 3 phase hybrid inverters since their 3 ph hybrid range was somewhat mysteriously withdrawn. Their Home Hub is a very well featured single phase hybrid inverter. The SolarEdge battery is of the 'monolithic' type being a 10kWh (9.7kWh usable) one-piece slab.

What is the difference between a single-phase and a three-phase inverter?

They also have the ability to handle a wider range of voltages and have a lower total harmonic distortion (THD) than single-phase inverters. This means that three-phase inverters produce a cleaner and more stable AC output, leading to improved grid stability and energy savings.
