The R Project for Statistical Computing Getting Started R is a free software environment for statistical computing and graphics. It compiles and runs on a wide variety of ...

Search. For hardware reasons (disk space, CPU performance) there is currently no search facility at the R master webserver itself. However, due to the very active R user community (without which R would not be what it is today) there are other possibilities to search in R web pages and mail archives:

This is an introduction to R ("GNU S"), a language and environment for statistical computing and graphics. R is similar to the award-winning 1 S system, which was developed at Bell Laboratories by John ...

What are R and CRAN? R is "GNU S", a freely available language and environment for statistical computing and graphics which provides a wide variety of statistical and graphical techniques: linear and nonlinear modelling, statistical ...

R is an elegant and comprehensive statistical and graphical programming language. Unfortunately, it can also have a steep learning curve. I created this website for both current R users, and experienced users of other statistical packages (e.g., SAS, SPSS, Stata) who would like to transition to R. My goal is to help you quickly access this language in your work.
