

Recommended brands of rooftop photovoltaic panels in Luxembourg

Are photovoltaic panels subsidised in Luxembourg?

The installation of photovoltaic panels is heavily subsidised by the Luxembourg government and local authorities. This practice is fully in line with the national objective of reducing greenhouse gas emissions (-55% by 2030). Consult our Guide to photovoltaic subsidies in Luxembourg (subsidies 2025).

Does Luxembourg need photovoltaics?

Luxembourg has an ambitious target to increase the share of energy from renewable sources to 25% by 2030. The development of photovoltaics is one of the solutions recommended in Luxembourg's integrated national energy and climate plan (PNEC, Predicted No-Effect Concentration).

Can I install solar panels in Luxembourg?

In Luxembourg, you can benefit from a number of support programmes such as the Klimabonus, Enoprimes and a Reduced VAT in 2025. See our guide to incentives for installing photovoltaic panels. What is the lifespan of solar panels installed in Luxembourg? Solar panels generally have a lifespan of 25 to 30 years in Luxembourg.

How do solar panels work in Luxembourg?

To put it plainly: owners of solar panels consume the energy produced by their panels directly. If there is any electricity left over, it is sold back to the grid at a rate set by the government. This is the most subsidised in Luxembourg. This system has a number of advantages: It also enables them to generate additional income.

How can Luxembourg save money on solar panels?

Luxembourg homeowners can reduce their electricity bills and sell surplus production thanks to the self-consumption model. The government is proposing subsidies covering up to 80% of installation costs with an estimated return on investment of between 5 and 7 years. How steep should the roof be for solar panels?

Who makes soluxtec solar panels?

Soluxtec, a significant German manufacturer of photovoltaic modules, stands for the highest quality and innovation. Their environmentally friendly and sustainable solar solutions provide an efficient way to harness renewable energy and reduce the ecological footprint.

BuildSG is a national movement that encapsulates the spirit of collaboration in the transformation of the built environment sector. It underscores the collaboration among the government, unions, trade associations and chambers, industry and institutes of higher learning, all working collectively to realise an advanced and integrated built environment sector with progressive and ...
