

Russian portable power supply price

How much power supplies are imported to Russia?

Table 5. Import of power supplies under the customs codes 8504408200 and 8504409000, in 2018 by distributors and brokers. The import volume of 32 distributors and brokers of electronic components to Russia amounted to \$87 million.

Who is the best power supply company in Russia?

In the world of power supplies (PS), it is quite a well-known company on the Russian market. I know that MEAN WELL company is the absolute leader on the PS market. I became curious about comparing these companies.

What is the supply voltage in Russia?

The supply voltage in Russia is 230V.

What type of power outlet does Russia use?

Russia uses the same power outlets as most European countries, including Finland, Sweden, France, Germany, and Spain. These outlets are 2-pronged and circular shaped. If your plug is different, you'll need an adapter. The voltage in Russia is between 220V and 240V.

How much does Russia import from distributors & brokers?

The import volume of 32 distributors and brokers of electronic components to Russia amounted to \$87 million. It's an extremely important stipulation, since this customs code implies not only import of the products that the companies listed in Table 4 specialize in. It can be exemplified by SIEMENS AG from Table 2.

Why is mornsun a good distributor in Russia?

At present, shipments to Russia account for one third of all European deliveries". Besides the product quality, success of MORNSUN in Russia grounds in fact that here we have a very good distributor - ECO company. All our high sale rates in Russia are due to the work of its specialists.
