

Small capacity fast portable power bank

What features should you consider when buying a portable power bank?

Pass-through charging is another feature to consider; with it, you can charge your device and a portable power bank simultaneously. That's convenient if both your phone and backup battery are running on empty.

Do small power banks have USB ports?

In general, small power banks come with one or two USB output ports, so think about how many devices you want to charge. While most small power banks come with the micro-USB cable required for charging them before you head out, in most cases you'll need to supply the wall plug, as well as your device's charging cable.

How big is a power bank?

Broadly speaking, a power bank's size is related to its electrical capacity, which is measured in milliamp hour (mAh). In small models, power bank capacity can range from 5000mAh to over 25000mAh-- the higher the mAh, the more times the power bank will be able to charge your device.

Should I buy a small power bank?

Note, however, that compact power banks are best saved for quick boosts rather than multiple full charges for different devices, as the mAh will be lower. In general, small power banks come with one or two USB output ports, so think about how many devices you want to charge.

What is a slim power bank?

This is where slim power banks come in. Slim power banks are handy, portable devices that can quickly charge your mobile devices when you're on the go. They are sleek, lightweight, and easy to carry in your pocket or bag. However, with so many options available on the market, it can be challenging to choose the right one.

Which power bank is best?

All of the power banks on this list passed our testing, traveling with us on the road and powering our devices at home. Anker is the best in part because it packs more power into its batteries at a lower weight. Its batteries charge faster than competitors. Its small Anker Nano battery has the best power-to-weight ratio of any battery on our list.

There's that PD or Power Delivery again - the PowerCore 10000 PD from Anker brings with it the same 18W fast charging as the Mophie model above, and the same choice of USB-C and USB-A ports.
