## Small household solar lights in Cyprus for less than 20 yuan

The reason this is important is that it might limit the possible size of the installed system. If you have 1-phase, the limit you can install is 4,15kwp. If you have 3-phase, the limit you can install is 10,4kwp. As 4,15kwp is not enough for most people to cover their electricity consumption, it is likely that you will need to update your house to 3-phase electricity before ...
