

Solar lighting for campsites

Are solar lights suitable for camping?

Solar lights are awesome for camping. You can simply set your solar light on your dashboard or on a window sill during the day (while the sun is shining) to charge.

Can you use a solar camping light while hiking?

Yes, you can use a solar camping light while hiking. As you hike during the day, you can clip the camping light to your backpack with the solar panel exposed to the sun. This way, it charges as you hike. Once you've set up camp or are ready to wind down, you can turn on the charged solar camping light.

How do solar camping lights work?

Solar camping lights work by soaking up energy from the sun through a built-in solar panel and storing it in a battery. This enables it to deliver the power necessary to illuminate the light, whenever you need it.

How can you charge a solar camping light?

Solar camping lights can be charged by placing them in sunlight. However, having a couple of charging options can be important. If you have several days of cloudy weather, you can simply plug your camping light into a standard USB port from a 12V port in your car/RV's dash, or from a larger portable battery bank or solar RV generator.

How many lumens does a solar camping light produce?

You can use it not only as an overhead or ground light for camping, but also as a task light or emergency light. This lantern produces 40 lumens, which is significantly dimmer than some other solar camping lights, including our number one pick above.

Should you have solar camping lights on standby?

Even if you are springing for hookups, having some solar camping lights on standby can make a big difference if you lose power for some reason. If a storm comes through or your campground forgets to pay the power bill, you'll at least still be able to see where you're going.

Solar camping lights are fun lighting solutions you can use at your campsite as well as inside and outside of your RV. These solar powered outdoor lights are an energy efficient way of lighting your outdoor space without ...
