

Solar outdoor lighting

What are outdoor solar lights?

Outdoor solar lights simplify exterior illumination, offering beautiful, functional lighting without the need for wiring. These lights are available in a variety of forms to help improve home safety and security, light up patios and walking paths, or create a cozy glow around your lawn, garden, or pool.

Which solar lights are best for your outdoor space?

Luckily, we tried and tested a wide range of solar lights to find the best one for every outdoor space and how well they cope with different weather conditions for longevity. If you're after string lights, Brightech's Ambience Pro LED Outdoor String Lights is our favorite pick.

Are solar-powered outdoor lights eco-friendly?

Outdoor lights come in a variety of styles--some people like pathway lights, while others prefer string lights or twinkling garden lights --so you can create the perfect atmosphere for your space. Solar-powered outdoor lights are both an eco-friendly option and a solution to the hassles that are countless cords and frequent battery changes.

What should you consider if you want decorative outdoor solar lights?

If you're looking for lighting to hang around a gazebo or line a patio, consider more decorative models, such as the Aityvert torch lights or the Brightech string lights. Here are three factors to consider when buying landscape lighting. Before purchasing outdoor solar lights, consider your personal lighting needs.

What are the different types of outdoor solar lights?

Based on their light output, outdoor solar lights fall into three general types: motion-activated, dusk-to-dawn, and timer-controlled. Because of solar cell size and battery capacity, the solar energy gathered is a limited resource, so consider when you want the lights to shine and for how long.

Are solar lights good for outdoor use?

Solar lights are overwhelmingly powered by LEDs because they consume significantly less energy than traditional incandescent or fluorescent bulbs, allowing for smaller batteries and longer operational times. Because they are designed for outdoor use, most solar-powered outdoor lights offer decent water and weather resistance.

The battery life of solar outdoor lighting determines the number of hours the lights can stay illuminated following a full day of sunlight. Most outdoor solar lights claim to have a battery life of between eight and 12 hours, but be aware that this is usually based on the assumption that the light's solar panel is in full sun all day, which ...

Mounted solar lights are a game-changer for your outdoor space: they can provide soft, ambient lighting for a more inviting feel or blast powerful beams to light up paths and entry points and make your home feel safer--all with no wires or outlets necessary. To find the best mounted solar lights, we tested 19 models on our porches, patio decks, and backyards.

Most outdoor solar lights last around eight hours on a single charge, though this lifespan can decrease based on the amount of direct sunlight it receives during the day and the time of year. For example, Aityvert's solar torch lights last up to 12 hours during summer but just five hours during winter.
