A 26650 rechargeable battery is a type of lithium-ion battery known for its high capacity and robust performance. The name "26650" comes from its dimensions: 26mm in diameter and 65mm in length. These batteries are favored for their excellent energy storage capabilities, making them ideal for high-drain devices such as powerful flashlights, electric ...

26650 batteries are available in various types, each with its own characteristics and applications. The most common types include: Lithium Cobalt Oxide (LCO): LCO batteries offer high energy density and high discharge rate ...

Usefully, it is possible to recharge this compact, high-capacity Li-ion cell up to 700 times. Xtar is a respected technology company that specialises in the development and manufacture of high-quality Li-ion batteries. Each 26650 lithium battery weighs 98 grammes and measures 26.5 millimetres in diameter by 68.2 millimetres in height (approximate).

Our advanced low temperature battery solutions. High-quality 26650 lithium batteries for extreme cold weather performance. Charge and discharge below 0°C directly.

26650 lithium batteries also use different cathode materials as same as 18650 batteries, According to the current market application, it is divided into lithium iron phosphate and ternary battery, the difference between the two is ...
