

South Sudan chooses UPS uninterruptible power supply

What is an uninterruptible power supply (UPS)?

However, typical desktop computers, routers, and similar devices still need to be plugged into a power source all the time to work. That's where an uninterruptible power supply (UPS) comes in. Its main function is to act as a big battery that powers your devices when your electricity goes out.

Do smart devices need an uninterruptible power supply (UPS)?

Many smart devices have built-in battery packs, with modern laptops packing enough cells to last a whole day. However, typical desktop computers, routers, and similar devices still need to be plugged into a power source all the time to work. That's where an uninterruptible power supply (UPS) comes in.

What is a ups & how does it work?

A UPS's job is to provide power to the devices connected to it if a primary power source is cut off or the voltage reaches extremely low levels. Primarily designed for things like PCs and network systems, it's basically a huge battery that works as a middle ground between standard AC power and a generator.

What is the best ups?

Read More » Our pick for the best UPS overall goes to the APC BR1500G Backup Battery. At 1500VA/865W, it can power most devices, including computers, external hard drives, and wireless routers, from a few minutes to several hours, depending on the total connected load.

Should you use an ups if you have a blackout?

A UPS is great if you're looking to protect your electronics from blackouts. If you experience one, the UPS will give you plenty of time to save work on your PC or finish projects on other connected devices before shutting them down. Readers like you help support How-To Geek.

How many a/c outlets does an ups have?

The UPS has four outlets with battery backup and surge protection and four with just surge protection. Four outlets are nicely spaced out, so you can easily connect devices with larger plugs. Unfortunately, this UPS does not have USB ports, so the eight A/C outlets are all you'll get.
