

South Sudan containerized generator sets for sale

What is a containerized generator set?

This specific containerized generator set is designed to run on heavy fuel oil (HFO), which is a thick, viscous fuel that is often used in large marine engines and power plants. The generator set is contained within a shipping container, which provides easy transport and installation on site.

What is a man 18v28/32 containerized generator set?

MAN Diesel (HFO) 18V28/32 Containerized Generator Sets is a type of power generation equipment that utilizes a MAN 18V28/32S diesel engine to drive an alternator and produce electricity. The engine is a medium-speed unit with 18 cylinders, a cylinder diameter of 280mm, and a piston travel length of 320mm.

How much does a containerized generator weigh?

The engine is designed to operate at a rotational speed of 720r/min and has a dry weight of 71000kg. This specific containerized generator set is designed to run on heavy fuel oil (HFO), which is a thick, viscous fuel that is often used in large marine engines and power plants.

What is MAN Diesel (HFO) 18v28/32 containerized generator sets?

Overall, MAN Diesel (HFO) 18V28/32 Containerized Generator Sets is a high-capacity power generation solution that is well-suited for applications that require a reliable and efficient source of electricity, such as large-scale industrial facilities, data centers, and remote mining or drilling operations.

ETTES modularized container type generators, adopting advanced design, high quality materials, and strictly tested in harsh working conditions, vastly applications for both diesel fueled engines and gas fueled engines, mainly for ...
