

South Tarawa Customized Solar Water Pump Price

What is a solar water pumping system?

Solar water pumping systems are used where grid power is not available, or the grid is not reliable. Solar pump systems use Solar Panels to convert sunlight into electricity to power AC/DC pumps which can be used to pump Surface or groundwater.

What are the different types of solar water pumping systems?

There are 2 general types of solar water pumping systems: submersible pumps and surface pumps. These pumps are used for a variety of applications. Submersible solar water pumps are pumps which, as the name already indicates, can be submerged. Their main use is for boreholes and wells.

What is a surface solar pumping system?

Surface solar pumping systems are pumps which are not submerged, but are located above the water level. Their main use is in lakes, ponds, rivers, pools and to pump water from one tank to another. Special types of surface pumps are:

How much water can a solar water pump pump lift?

Our solar pump systems can pump at a rate of up to 240m³ /hour and vertically lift water up to 450m. Power Providers can provide a full service package including the solar array, the pumping equipment, drilling and irrigation. If you are ready to request a quote, just click [here](#). Solar Water Pumping Systems: Lorentz, SunPumps, Future Pump

How much does a solar water pump cost?

A basic, but complete solar water pump kit, will cost around \$2,000. This baseline system will pump water from a few hundred feet deep at a few gallons per minute flow rate. Often solar pumps systems will replace the high costs of electric pumps and generators, high maintenance costs of windmills, and the inconveniences of hauling water.

Are solar-powered water pumps eco-friendly?

Whether you are looking for the most environmentally friendly pumping solution on the market or want to give your garden a plus of beauty and elegance, a solar-powered water pump is what you should look for. It's 100% green, efficient and cheap! Each pump comes with its solar panel, and it's straightforward to install and use.
