

Sudan Large Uninterruptible Power Supply

How much electricity does Sudan use?

It is estimated that the total installed generation power capacity in Sudan in 2013 amounted to 2,533 MW, with about 70% of the electricity being consumed in the Khartoum area. Domestic power consumption dominates the market, with approximately 65% of electricity consumption being attributable to the sector.

What is the main source of electricity in Sudan?

Hydroelectricity is Sudan's largest source of on-grid power, accounting for 68% of generation in 2011, followed by diesel and heavy fuel oil (27%) and biomass and waste (5%). Hydroelectricity is generated from five dams at Roseires, Sennar, Jebel Aulia, Khashm el-Girba, and Merowe.

What happened in Sudan in 2013?

Riots in Sudan- Sept 2013 In 2013, and again in September 2014, the Sudanese took to the streets in Khartoum violently protesting against the state of the nation's mains supply. Sudan is one of the largest countries in Africa. In July 2011 South Sudan was separated and became an independent country.

Is Sudan an independent country?

Sudan is one of the largest countries in Africa. In July 2011 South Sudan was separated and became an independent country. National Electricity Corporation (NEC) is the state-owned electricity company in Sudan.

Atlas Security is dedicated to providing top-tier 20 KVA UPS (Uninterruptible Power Supply) Distributors systems sourced from internationally certified brands in Juba South Sudan. As a leading provider in the realm of security solutions, we prioritize reliability and quality to ensure uninterrupted power supply for critical applications.

UPS is short for "uninterruptible power supply," and that's exactly what it is. In many cases, a UPS translates to some form of battery backup, but regardless of the technology used, a UPS delivers backup power when your normal power source fails, or when the voltage falls below an unacceptable threshold.
