

This sturdy acrylic battery storage box holds up to 42 batteries of various shapes and sizes across nine labelled compartments. Much safer than using a metal battery storage box, (where batteries are at risk of shorting-out), these robust lidded boxes can be stacked if two or more are required.

Battery storage boxes are an easy and convenient way of securing and storing batteries. They are sometimes referred to as battery cases or battery organisers. Battery storage boxes and cases are typically made from sturdy plastic and are shatter proof and drop proof. They come in a range of styles and can vary from a simple plastic box with a ...

Q1: What exactly is a battery storage box meant for? A1: The main role of a battery storage box is to store and safeguard several types of batteries. In addition to protecting the battery, the storage box can help enhance the battery's lifespan by controlling temperature and ventilation.
