Are battery powered power tools a good choice for your yard?

It's time to ditch the smelly gas and messy cords and go with battery powered equipment to clear your yard. The power and runtime of cordless power tools is increasing rapidly. You no longer need to worry about running out of juice when landscaping a your yard. However, choosing an outdoor power equipment system can be confusing.

Which outdoor power tools should I buy?

If you are invested in a Milwaukee, Makita, Ryobi, or DeWalt battery platform, then it makes a lot of sense to go with those outdoor tools, as the same battery that powers your cordless drill, will run your blower. If you are starting fresh, then use our guide to help select the best outdoor power tools for your yard.

Do you need a battery platform for a cordless tool?

A battery platform is not always necessary for a cordless tool, but it can bring out the best in some tools. Better batteries bring longer run-times and more power (thanks to higher power densities in lithium-ion batteries). For the average tradesmen, they want a battery that will last, and in some cases, a superior battery platform can achieve that.
