

Tripoli Riva on solar power

Will Libya build a solar park near Tripoli?

TotalEnergies and Libya's national utility plan to build a massive solar park in the Sadada region, 280 kilometers southeast of Tripoli.

Will Libya build a 500 MW solar park?

General Electricity Company of Libya (Gecol), a state-owned utility, plans to build a 500 MW solar park in the Sadada region, 280 kilometers southeast of Tripoli, in partnership with French energy giant TotalEnergies.

How much solar power does Libya have?

According to the International Renewable Energy Agency, Libya only has 6 MW of installed PV capacity. In its strategic plan for renewables for the 2013-25 period, the Libyan government has set targets for 300 MW of PV by 2020 and 450 MW by 2025. It has also set targets to build 150 MW of concentrated solar power by 2020 and 800 MW by 2025.

In our country, the city of Tripoli and the rest of the cities are currently suffering from a severe problem of power cuts during the past seven years (2014-2021), especially during ...
