We are the only official representative, importer, and installer of solar panels and equipment from Victron energy in Turkmenistan. Street lights Water pumping facilities

Solar water pumping works for any water source, be it boreholes, wells, river, lakes or dams. For a Solar Water Pump, where and do you place the solar array? The array of solar modules should be placed in a sunny spot where no shading occurs. Avoid placing the array near large trees or buildings, this could substantially reduce power output.
