

UK Solar Lighting Shapes

What are the different types of decorative solar lights?

Decorative solar lights come in all shapes and sizes, from ball lights and cubes to earth spikes, fairy lights and lanterns. And with colour-changing options available too, you can add an explosion of colour to brighten your garden, pathways or patio. Which decorative solar lights are popular for the garden?

What types of solar lights are available?

Choose from a wide selection of solar lighting options including security lights, fairy lights, garden lights, and more. Experience reliable year-round performance, exceptional quality, and stylish designs

Where can I buy solar garden lights in UK?

Solightify offers technically advanced solar light products in UK. Free delivery on all orders. Visit our unique collection of solar garden lights and Order now !

What are shapelights used for?

Shapelights can be used as portable USB chargeable battery powered lights, solar powered lights or mains powered lights giving you complete freedom of positioning anywhere in your home or garden. Select your favourite colour or let your Shapelight gently cycle through different colours.

Do solar lights change colours?

Colour changing solar lights light up in your favourite colours and take garden lighting to an impressive new level. Earth spikes, fairy lights and lanterns are also a popular choice for adding light and personality to any outdoor space. How do solar lights work?

Can a shapelight be used as an indoor light?

You can plug your Shapelight directly into a plug socket or charge it by USB and use it as a portable indoor light if there is no plug socket nearby. A full USB charge takes just a few hours and will provide 50 hours of illumination. In Indoor Mode your Shapelight will operate much like a normal mains powered light.

Home Lighting, Solar Garden Lights, Sensory Products, Fairy Lights, Lava Lamps, Candles, Glow Sticks and a LOT MORE! Invented in the 1960's, the Lava Lamp and its mesmerising effects must have been the original mood light and are even more popular today.

The solar wall light uses LED so that the rechargeable battery provides energy for as long as possible. This is because LEDs have a high luminous efficacy, meaning they convert watts into lumens better. This means that little energy is required for long-lasting, appropriate brightness.. Many solar wall lights are dimmable so that the light intensity can be adjusted as required.

The patterned shade of the metal solar ball creates atmospheric light effects on the floor and walls. The decorative solar-powered ball lights look particularly good on the terrace or balcony. The metal solar light is available in black, silver, rust or copper. Definitely an eye-catcher on a warm summer evening! Glass solar spheres
